

Display Energy Certificate

BER for the building detailed below is:

B2

The BER is based on meter readings of all energy used in the building. The BER and CO₂ indicators are expressed as respective ratios of primary energy and CO₂ emissions relative to a benchmark that represents performance indicative of all buildings of this type. Information on the derivation and interpretation of BER is available at www.sei.ie/ber

Arles Ns

Ballickmoyler

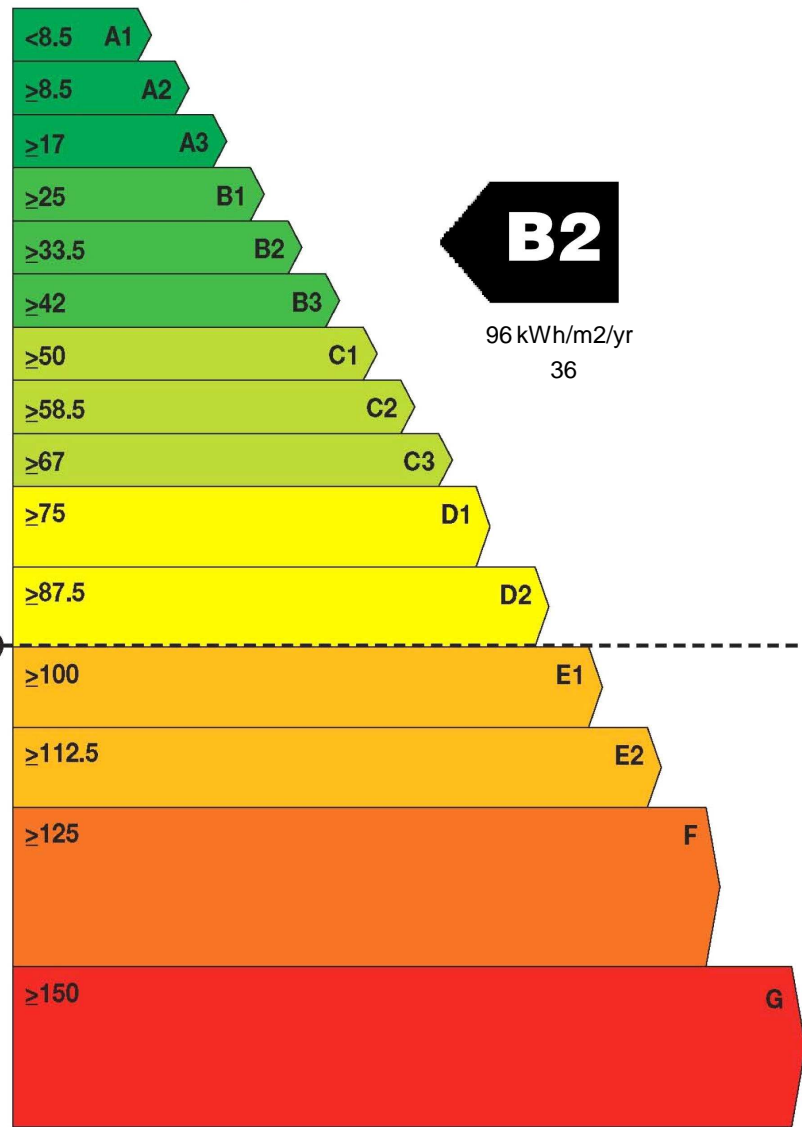

Laois

Building Type: Schools and seasonal pub
 Useful Floor Area (m²): 463
 Main Heating Fuel: Heating Oil
 Building Environment: Heating and Natural Ventilation

BER No.: 900001808
 Date of Issue: 09/02/2010
 Valid Until: 01/01/2011
 Assessor No.: 900100

Building Energy Rating (Indicator)

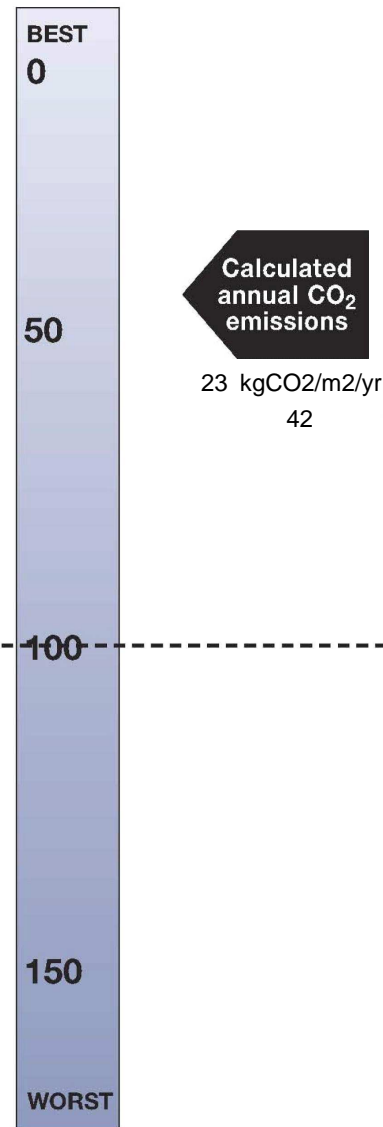

LOW ENERGY USE

HIGH ENERGY USE
